

SENIOR PROJECT/DESIGN ENGINEER

SALARY: FROM £45,000 DEPENDING ON EXPERIENCE

LOCATION: LATHOM, NORTH WEST

CLOSING DATE: 21st MAY 2018

WHO ARE WE?

The NSG Group is one of the world's leading manufacturers of glass and glazing systems in three business areas: Architectural, Automotive and Technical Glass.

Founded in 1918, NSG acquired the leading UK-based glass manufacturer Pilkington Plc in June 2006. Today, the Company has combined sales of just over JPY 629 billion, with manufacturing operations in 28 countries, sales in 130 countries, and employs some 27,000 people worldwide.

Our mission is to be the global leader in innovative high performance glass and glazing solutions, working safely and ethically.

THE ROLE

A vacancy has arisen for a Senior Project/Design Engineer within the Refractory and Structures area of Architectural Engineering which will report to the Section Head – Refractory and Structures. The role will be based at Lathom but willingness to travel frequently and sometimes for long periods is essential, with a particularly need for "on-site" management during the installation and commissioning phases of the project.

The main responsibilities of the role are to:

- Ensure the delivery of specifications, estimates, designs and design programmes
- Ensure designs are assessed against health, safety and environmental activities
- Undertake and/or support Design Stage Risk Assessments and ensure design solutions are aligned to local legislation
- Lead the design team throughout the design and procurement phases of the project
- Manage costs in accordance with the project budgets and procedures

- Manage the tendering process and maintain the required deadlines
- Assist the Project Manager in generating project programmes
- Support risk management activity.
- Direct the work of on-site refractory and structural installation contractors.

THE PERSON

The successful candidate will be educated to degree level in an engineering/technical discipline, and will have a good knowledge of glass manufacturing processes. They will have proven design management skills, knowledge and understanding of furnace design principles, be pro-active and able to work on their own initiative, ready to identify problems and quickly report them/provide solutions. They will also be a driven individual with a continual desire to improve the performance of themselves and the team. Alongside this, the successful candidate will have exceptional interpersonal skills and team-working skills with the proven ability to tightly manage suppliers and site installation contractors.

BENEFITS

- 25 days holiday
- BUPA Healthcare
- Holiday Salary Exchange scheme
- Car subsidy scheme
- Continual professional development and training
- Pension with employer contribution
- Employee discount schemes and corporate memberships
- On site Car Parking and Restaurant
- On site fitness activities and events, yoga, football, Pilates, table tennis, golf society

Based at rural 50-acre site in West Lancashire between the cities of Liverpool and Manchester, within easy reach of the Lake District and Peak District:
