

GRADUATE POSITION – ENERGY PROCUREMENT

SALARY: £23,000 – £26,000 P.A.

LOCATION: LATHOM, LANCASHIRE

CLOSING DATE: 31st DECEMBER 2018

WHO ARE WE?

The NSG Group is one of the world's leading manufacturers of glass and glazing systems in three business areas: Architectural, Automotive and Technical Glass.

Founded in 1918, NSG acquired the leading UK-based glass manufacturer Pilkington Plc in June 2006. Today, the Company has combined sales of just over JPY 629 billion, with manufacturing operations in 28 countries, sales in 130 countries, and employs some 27,000 people worldwide.

Our mission is to be the global leader in innovative high performance glass and glazing solutions, working safely and ethically.

THE ROLE

A vacancy has arisen for a Graduate Trainee Energy Category Specialist within our Global Procurement Team, reporting to the Energy Category Manager. The role is based at our UK head office in Lathom, West Lancashire.

Glass making is a significantly energy intensive process and the effective procurement of energy is essential to overall business competitiveness. The purpose of this role is to work alongside the Energy Category Manager to support the local business to establish and implement energy savings, to negotiate supply contracts and to work alongside colleagues responsible for Sustainability and Climate Change in lessening the business impact locally.

THE PERSON

The successful candidate will be a recent graduate with a minimum of a 2:1 degree who can demonstrate logical thinking and effective communication. This requires someone who can work with minimum direction and can learn how NSG systems operate and hence identify the critical effect of each configuration.

In order to identify opportunities a knowledge of energy basics would be advantageous in addition to advanced numeracy skills and the ability to demonstrate good influencing, interpersonal and communication skills. Suitable external training can be provided where suitable.

The successful candidate will work closely within the global Energy Procurement team, whose aim is to reduce energy consumption, costs and ultimately environmental impact.

The job holder must be prepared to undertake some overseas travel. A full UK driving licence and car ownership would be an advantage due to limited public transport to the site.

Selection will take the form of an assessment centre, which will include a competency interview, aptitude tests and a Personality Questionnaire.

BENEFITS

- 25 days holiday
- Continual professional development and training
- Six month salary review
- Overseas work opportunities
- Pension with employer contribution
- Employee discount schemes and corporate memberships
- On site Car Parking and Restaurant
- On site fitness activities and events, yoga, football, Pilates, table tennis, golf society

Based at rural 50-acre site in West Lancashire between the cities of Liverpool and Manchester, within easy reach of the Lake District and Peak District.
