Statement on NSG Group's Suspended Trading in Russia

NSG Group condemns the invasion of Ukraine by Russia.

We applaud the courage of the Ukrainian people in resisting the Russian forces and we extend our deepest sympathy to those that have sadly lost family members in the conflict and those that have had to leave their homes to find safety.

NSG Group has a longstanding business interest in Russia. In March 2022 we took the following actions regarding commercial operations in Russia:

- With respect to NSG Group's Russian joint venture (Pilkington Glass LLC), suspension of all glass trading arrangements between it and The Group and suspension of approval of significant new growth investment
- Suspension of all other commercial trading with Russian companies

These commitments will remain in place for as long as Russia continues with its invasion of Ukraine and is accordingly isolated by the international community.

We will continue to monitor the situation in Ukraine and will take further actions if we consider it appropriate to do so.
