WHO ARE WE?

The NSG Group is a global leader in glass manufacturing in three business areas: Architectural, Automotive and Creative Technology.

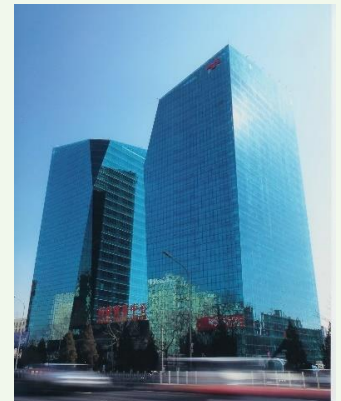

Our mission is to be the global leader in innovative high-performance glass and glazing solutions, working safely and ethically.

THE ROLE

Glass making is a significantly energy and carbon intensive process and the effective procurement of energy is essential to the overall business competitiveness and environmental impact of the NSG Group.

This role sits within the global energy Procurement team which has overall responsibility to define and implement the energy strategy for NSG Group. Reporting to the Category Manager – Renewable Energy, the successful candidate will work closely with the global energy Procurement team and other departments to identify and implement renewable energy projects such as onsite solar generation, offsite Power Purchase Agreements, and alternative fuel projects to decarbonise NSG Group's global energy consumption.

The role is based at our European Technical Centre in Lathom (near Ormskirk), UK however hybrid working is offered. As a result of the global nature of this role some overseas travel may be required.

WHAT ARE WE LOOKING FOR?

You and your skills

The successful candidate will have a minimum of a 2:1 degree. Knowledge or experience of energy procurement and/or renewable energy basics would be advantageous. Training can be provided where suitable.

The ability to demonstrate logical thinking, effective communication, advanced numeracy and interpersonal skills is strongly desired. It is vital that you have a customer focused attitude with commitment to make things happen working collaboratively across teams and geographies to form alignment. The ability to identify key opportunities for Procurement support and prioritise workload effectively is essential.

Benefits

- 25 days holiday plus bank holidays
- 37½ hour per week, Monday - Friday
- Pension with employer contribution
- Staff incentive scheme
- Continual Professional development and training including CIPS
- Flexible/hybrid working
- On-site canteen and car parking with EV charging facilities

A full UK driving licence and car ownership would be an advantage due to limited public transport to the site.

We give everyone an equal opportunity to contribute to their full potential and harness the richness of ideas.

If you believe you take on the challenge, we very much want to hear from you. To apply please send your CV and covering letter to RecruitmentVacanciesUK@pl.nsg.com and quote reference **Group P22-21**.
