

# Shift Engineering Technician (Electrical)

St Helens, Merseyside

Up to £37,597 per annum + shift premium, Rota cover & Conditional pay  
(depending on skills and experience)

## WHO ARE WE?

The NSG Group is a global leader in glass manufacturing in three business areas: Architectural, Automotive and Technical Glass.

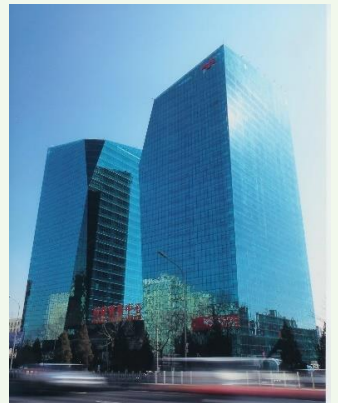

Our mission is to be the global leader in innovative high-performance glass and glazing solutions, working safely and ethically.

## THE ROLE

There is an opportunity for a suitably qualified individual with an Electrical Engineering background to join the Manufacturing Team at Watson Street Works, reporting to the Manufacturing Controller.

The prime role will be to offer electrical expertise on a continuous shift system. However, the successful candidate will be expected to operate across all manufacturing areas including production disciplines when required.

The successful applicant will be responsible for all aspects of the maintenance of the RP3 line and off-line process operations, plus associated plant, buildings, services and vehicles. The duties include, but are not limited to, routine maintenance; inspection and calibration; fault finding and diagnostics in emergency breakdown or planned situations; modification and improvement of plant; hazard identification and elimination; supervision of trainees and contractors; and administration of maintenance systems.

## WHAT ARE WE LOOKING FOR?

### You and your Skills

- Hold a recognised craft apprenticeship and will have obtained a HNC/HND or equivalent in an Electrical Engineering discipline.
- Be able to work co-operatively as part of a team, including instructing/coaching colleagues in areas of their own expertise
- To work flexibly in order to respond to changing demands
- Detailed knowledge of a range of specialised equipment and processes including the associated safety requirements and emergency procedures
- Shows resilience by consistently displaying a positive outlook and responding resourcefully when faced with new challenges and demands
- Demonstrates a visible commitment to safety, quality and ethical behaviour.
- Actively seeks to understand internal and external customer circumstances, problems, expectations and needs.

### Benefits

- Holidays are built into Shift System
- Gainshare Bonus Scheme – based on business performance and not guaranteed
- Group Personal Pension Plan with up to 8% employer contributions
- On site car parking
- Cycle to work scheme

We give everyone an equal opportunity to contribute to their full potential and harness the richness of ideas.

If you believe you have the skills and abilities we need, and are up to the challenge, we very much want to hear from you!
